

FACT SHEET:

Beyond the Gut

The Microbiome & Probiotics R&D and Business Collaboration Forum has 4 conference tracks covering topics across research, funding, commercialization and regulation of various applications, including the Gut, Skin, Early Life & Infant Microbiome, Women's Health, Diet and Personalised Nutrition.

You can customize your agenda from any of the conference tracks, roundtable sessions, [poster presentations](#) and networking forums.

To help you navigate the whole, larger agenda, here are the highlights relating to conditions "Beyond the Gut":

DAY ONE

8:00	Exhibition hall opens Refreshments
Session 1	Role of eukaryotic microflora in skin disease and skin health homeostasis Thomas Dawson, Senior Principal Investigator, Skin Research Institute Singapore, Agency for Science, Technology and Research
KEYNOTES	Systems ecology of host-microbiome interactions Paul Wilmes, Associate Professor of Systems Ecology, University of Luxembourg
	Solution Provider Presentation: Christine Lang, Chief Scientific Officer, Belano Medical AG
10.40	Poster Presentations Refreshments & Networking
Session 2	Vaginal Microbiota Management and Impact on Women's Health Liisa Lehtoranta, R&D Manager, Nutrition & Biosciences, DuPont
WOMENS HEALTH	Beyond the bacteriome – vaginal and gut mycobion and inflammatory balance Duccio Cavalieri, Professor of Microbiology, University of Florence
	Vaginal Microbiome Marie Drago, Founder, Gallinée
	Solution Provider Presentations: Clinical Microbiomics, Novogene, and Labskin
13.35	Lunch
Session 3	POSTER COMPETITION WINNERS TALK If interested in submitting a poster and/or applying to present a poster on the programme, please CLICK HERE and apply before the deadline 27th April 2020 Solution Provider Presentations: Biose, Luina Bio, Probiotal and COSMOSID
WOMENS HEALTH	Microbiome Trends in Cutaneous Scar Formation Jennifer Powers, Assistant Professor of Dermatology, University of Iowa, USA Or Vaginal Microbiome Hana Janebdar, Founder and CEO, Juno Bio
	The rationale of probiotics in urogenital female healthcare Franco Vicariotto, Specialist Obstetrics and Gynecology, Senior consultant of San PIO X Hospital Milan, Italy
16.10	Poster Presentations Refreshments & Networking
Session 4	Roundtable Session Roundtables are informal, small-group interactive discussions on key topics in the field. Discussion leaders will introduce sub-topics/questions for discussion and roundtable attendees are encouraged to participate actively in the session. # 1 - Microbiome friendly skincare. Are the consumers interested? # 3 – Human milk probiotics in infant microbiota development # 4 - Screening, selection and development of ingredients and formulation for their impact on skin microbiota
18.00	Drinks Reception

DAY TWO

8.20	Refreshments
Session 1	Keynote presentation: Harnessing the Gut Skin Brain Axis in Health Disease – Short review of a future option Lionel Breton, Scientific Director, L'Oréal Advanced Research
KEYNOTES	Sleep, microbiota and immune system Hok Bing Thio, Erasmus University Medical Center
	Solution Provider presentations: Bio-Me, MyMicrobiome & DSM
10.30	Poster Presentations Refreshments & Networking
Session 2	Acne therapeutics Yug Varma, CEO, Phi Therapeutics <small>Reserved</small>
	Cutibacterium acnes the main component of the skin microbiota Veronika Oudova, S-Biomedic, Spain
	Brain microbiome promotes tau aggregation and Alzheimer's disease George Tetz, CEO, Human Microbiology Institute
	Comprehensive analysis of the skin microbiome using shotgun metagenomics Senior Representative, Clinical Microbiomics
13.20	Lunch
Session 3	Solution Provider Presentations: Probiotic "Drug-discovery" finding a treatment for vulvovaginal candidiasis Paulo Refinetti, CEO and Founder of, REM Analytics
	Roundtable Session Roundtables are informal, small-group interactive discussions on key topics in the field. Discussion leaders will introduce sub-topics/questions for discussion and roundtable attendees are encouraged to participate actively in the session. # 1: Live bacteria in the consumer skincare market # 2: The microbiome, probiotics and infant health # 3: Protecting and Defending Intellectually Property in the Microbiome Space: Challenges and Strategies
tba	Evening activities

DAY THREE

8.20	Refreshments
Session 1	Keynote presentation: Microbiome related regulatory considerations Qun Wang, Primary Reviewer, Office of Vaccines Research and Review Center for Biologics Evaluation and Research, U. S. Food and Drug Administration
	Improving cancer treatment through Oncobax-based therapeutics Romain Daillere, Head of Preclinical Research, EverImmune
	The blood microbiome: new source of biomarkers for infectious and cardiometabolic diseases. Benjamin Lelouvier, CSO, Vaiomer
10.30	Poster Presentations Refreshments & Networking
Session 2	Immune responses to bacterial antigens and association with colorectal cancer risk in a large European cohort study David Hughes, Lecturer / Assistant Professor, Cancer Biology and Therapeutics Group, UCD Conway Institute, University College Dublin
	Roundtable Session Roundtables are informal, small-group interactive discussions on key topics in the field. Discussion leaders will introduce sub-topics/questions for discussion and roundtable attendees are encouraged to participate actively in the session. # 1: The microbiome and women's fertility # 3: Sleep, microbiota and immune system
13.20	Lunch
Session 3	Application of human genetics to understand the causal link between the gut microbiome and colorectal cancer Kaitlin Wade, Elizabeth Blackwell Institute Research Fellow in Integrative Epidemiology, University of Bristol, UK
	The human microbiome and cancer Senior Representative Merck
	Cancer & the Microbiome
tba	Evening activities
